COLLEGE DECISION DELAYED

A Penny for your Thoughts

"Would you consider encouraging your children to consider a career in politics?"

Mrs. R. Paek, 2855 Gramercy Ave.:
"No, I don't think I would. I would prefer some other profession for my children. I would rather see my son enter medical profession."

Paul Cheney, 22062 Van Deene:
"Yes, if a child of mine wanted to enter politics as a career, that would be fine. It takes well informed citizens to head our political institutions, and we need youngsters to get into it."

Joe Little, 2601 Artesia:
"I believe young people should be encouraged to take an interest in politics and to make that a career if they choose. We need them in our system."

Ronnie Havens, 1719 Gramercy Ave.:
"No, I would not, not the way they have to secure friends and money in order to get elected. It's a rough go for politicians, because if they do anything or go anywhere, he has to depend on other people's money and support."

Clara Lea Corder, 808 Cota Ave.:
"No, because it is too confusing and demands too much time away from home. I don't care about the publicity of public life, and I don't feel it would do any one any good."

Type II Vaccine Offered

Torrance area residents of all ages are being urged today to join with more than 200,000,000 persons throughout the world who have already taken Type II Sabin polio vaccine "safely and effectively."

The widespread successful use of the oral vaccine was cited by Dr. Reginald Smart, chairman of the public health committee of the Los Angeles County Medical Assn., which is offering the Type II immunization at 500 clinics in the county today and again next Sunday.

ELEVEN OF the clinics are located in Torrance and are listed below. The clinics will be open from 11 a.m. to 6 p.m. and marks the first time that the Type II vaccine has been made available on a large scale in the area.

"Though Type II polio virus accounts for only a small percentage of the disease in this country," Dr. Smart said, "it poses a serious threat in Los Angeles and other parts of entry on the West Coast because it has caused virulent epidemics in South American and in some South Pacific nations."

DR. SMART emphasized that Type II polio could be brought into this area by unknowing carriers.

The Sabin vaccine is especially attractive to the "needle-shy" person, according to clinic spokesmen. The vaccine is swallowed easily on a lump of sugar or in a sip of syrup. As it is taken orally, it destroys the polio virus in the intestinal tract and prevents the individual from being a carrier to his family and others.

A NOMINAL charge of 25 cents for each vaccine is requested but no one is refused the vaccine because of inability to pay, clinic sponsors stressed yesterday.

Registration forms have been distributed throughout the Southland and a copy of which was printed in Thursday's HERALD will speed the trip through the clinic if completed ahead of time.

Thieves Ransack City Barber Shop

Approximately \$927 worth of clippers, scissors and other barber equipment, money, a clock radio, tape recorder and the cash register was reported stolen Thursday from the Sunshine Barber Shop, 20435 Hawthorne Ave.

NOT HIS DAY . . . Truck driver Joe Joechartier of San Pedro cleans up a mess of soft drink bottles which spilled from his truck as he made a turn onto Calle Mayor from

Pacific Coast Highway. While at the task he heard plenty of wise cracks from passersby, such as "You shoulda stayed home today," or "Aren't you glad it wasn't beer."

336 Blood Donors Report To Red Cross Bloodmobile

With a record turnout of 336 people at the Elks Lodge 1948 on Abalone for the Red Cross Bloodmobile, Thursday, it is anticipated the next collection days, Tuesday at the Redondo Beach Elks Club and Wednesday at the regional Red Cross headquarters in San Pedro, will be equally successful.

Mrs. Robert Orsini, chairman of the blood program for the Torrance-Lomita Red Cross branch, commenting on the highly effective Thursday blood bank said, "It's a pleasure to work with the blood program when you see how our community supports it."

SHE ATTRIBUTED the tremendous response to the drive to the better understanding of the value of the Red Cross service, constant reminders and a well organized effort.

The largest participating group at the collection was National Supply Co., whose employees added 43 pints to their group account with the Red Cross blood program.

Torrance city employees sustained their support of the program by sending 25 donors to the bloodmobile.

Other groups supporting the program included two new

PTA groups, representing Halldale and Cimmaron Avenue Schools; four teenage members of Pharaoh's Pacers, a local car club.

THE MOST experienced blood donor was Frederick B.

Australian Sees Torrance School System at Work

All schools in Australia are of absolute equal quality in construction, according to an elementary school headmaster of Perth now visiting U. S. schools.

"Our best schools are not as good as your best schools," he said during a visit to Torrance schools Thursday. "But," he added, "our worst schools are better than some of your worse that I have visited during this tour."

James Merrifield Hodges, whose visits in the United States are part of a year-long tour of the world's educational systems, said a visit to Torrance schools was a "must" on his list because of the national and international publicity the local district has received on the multi-grade system and the handling of supplies, books, and materials in the Educational Materials Center.

AUSTRALIA, with a land area nearly equal to that of the United States, has six school districts, Hodges said. Each district is headed with a single director. He said the national uniformity in school construction has "a leveling effect."

While Australia suffers a lack of supplies and school-room space, "there are plenty of teachers in Western Australia," Hodges told local school officials. He compared

Folts, 1219 Fonthill, who, counting his donation Thursday, has given 56 pints of blood through the Red Cross.

Four teenage girls from the First Baptist Church assisted in the operation of the bloodmobile as Junior Red Cross

staff aides. They were Janice Bruck, Linda Northam, Sandra Turnate, and Gail Scott.

Volunteers working as receptionists, typists, donor room aides and canteen hostesses include Mesdames Blandford Moyer, Marie Beale, Alma Walton, N. Zupparde, Flora Owens, Penny Warde, Gordon Jones, Don Reining, Rita Lincoln, Margaret Constance, N. L. Broatch, T. T. Babbitt, Leonard Young, Ruth Richards, Melville Millar, William Cochran, Robert Sleeth and Robert Orsini.

Donor appointments for the upcoming Tuesday and Wednesday Red Cross Bloodmobile days may be made by calling the Red Cross, FA 8-0510.

Stamp Fans Meet

The Torrance Stamp Club will hold its last meeting of the year, Monday, Dec. 10, in the Scott Park Community Building, 13410 Catskill Ave., Wilmington.

Opposition to the Peninsula site is widespread among residents there, Mrs. Watts told the trustees.

SHE OUTLINED how the Palos Verdes Estates City

Citizens Asked to Share Cost of City Rose Float

Torrance residents are being given the opportunity to participate in the world-famous Pasadena Tournament of Roses through individual contributions that will be used to defray the construction costs of this year's Torrance float.

In prior years entry expenses have been covered generally by money received from various community business houses.

"This year's float will represent the actual dimes and dollars of all the people of Torrance," Robert H. Vroman, Torrance Tournament of Roses Assn. chairman said.

"Apollo to the Moon," the Torrance entry will be financed through contributions made by individuals and businesses in Torrance, Vroman

indicated. These can be made by completing the coupon in today's HERALD and forwarding it and a contribution to the Torrance Tournament of Roses Assn., P.O. Box 512, Torrance.

AN ESTIMATED two million persons will see in-person and some ninety million by television this New Year's Day regalia display of floats from all over the United States. This year the parade will be transmitted around the world by Telstar — the first United States space relay broadcasting station.

"This is a wonderful opportunity for the people of Torrance to get out and take part in a civic project that will this year gain international recognition," Martin M. Denn, Tor

Trustees Say Site Choice Due in 1963

Selection of a site for the new four-year college to serve the greater Southwest, scheduled tentatively for decision at a meeting of the Board of Trustees in Fresno this week, has been postponed for a period of 60 to 90 days, it was reported here by Glenn S. Dumke, chancellor of the California Colleges.

At the same time, John F. Richardson, vice chancellor, business affairs, denied published reports that the board was ready to announce the selection of a Palos Verdes Peninsula site.

In a letter to Mrs. Kenneth E. Watts, 145 Via Monte D'Orro, Richardson said the site problem was still unresolved and "will not be on the agenda of the Trustees meeting at Fresno."

HE ADDED that a local newspaper statement that the decision would be made at the December meeting in favor of the Peninsula site was incorrect.

Mrs. Watts, an active Torrance civic leader and member of the Torrance Advisory Committee for the college, had written to challenge claims made by representatives of the Santa Fe Railway and Standard Oil Co. at the Long Beach meeting. Officials of the companies had claimed that the presence of numerous oil wells on the Torrance property being considered would make the local site too costly.

TORRANCE officials at the meeting came away with the feeling that the Board of Trustees had been strongly convinced that the Peninsula site was the more desirable.

Delay of the decision, however, renewed hopes here that a new showing can be made in favor of the Torrance site. In announcing the delay, Dumke said the Property Acquisition Division of the State Finance Department and the consulting architects had asked for the additional time to study additional information on the proposed sites.

Opposition to the Peninsula site is widespread among residents there, Mrs. Watts told the trustees.

Some Crimes In Torrance Show Gains

Major crime in Torrance showed increases in some categories during the first nine months of this year, according to figures released by the Federal Bureau of Investigation this week.

Assaults rose from 25 a year ago to 41 in the current period; burglary rose from 905 to 988, and larceny from 357 to 533.

Murder cases dropped from three to two, but rape more than doubled—from 7 to 17. Auto theft rose from 217 to 245 during the nine-month period.

The FBI report indicated major crimes in California increased by 4 per cent while nation crime figures showed an increase of 5 per cent.

Instructor Plans Third Europe Tour

Larry Macaray, art instructor at El Camino College and former chairman of the Fine Arts Department at Torrance High School, has announced his third annual tour of Europe which will leave July 8 and return Aug. 14, next summer.

A meeting of those interested in joining the tour has been scheduled for Tuesday evening at 7 p.m. in Art Room No. 6, El Camino College, to pass out printed brochures and to explain the itinerary, payment plan, and answer questions about the tour.

Macaray said yesterday he plans to take the group to England, Holland, Belgium, Germany, Switzerland, Liechtenstein, Austria, Italy, Monaco, San Marino, France, and Spain. Total cost of the trip is \$1186, he said. The trip price includes air transportation from New York to London and return, all transportation within Europe, plus other expenses such as meals, lodging, museum and concert fees, and traveling expenses.

The trip will include a visit to Versailles, a Rhine River cruise, and a day in Monte Carlo, Macaray said.
